

## JAPS REPULSED

In Another Desperate Attack on Port Arthur

## LOSE THIRTEEN HUNDRED MEN

Japanese are Again Assuming the Offensive in the Operations Around Liao Yang

London, Sept. 27th.—A telegram to a local news agency from St. Petersburg says a dispatch has been received by the official news agency there from Harbin saying that the Japanese lost 1300 men killed during the night attack on Port Arthur, Sept. 18. The Russian warships it is added rendered valuable assistance in repulsing the Japanese.

## OPERATIONS AT LIAO YANG.

St. Petersburg, Sept. 27th.—The general staff has received the following dispatch from Gen. Sakharoff dated yesterday: "The enemy's vanguard consisting of one battalion and two squadrons of cavalry has assumed the offensive, probably for a reconnaissance, in the district between the Mandarin road and the heights of the village of Toumyuze. This advance was stopped by our troops. The enemy retreated along the whole line pursued by our cavalry. The enemy has not yet advanced north of Davao on the left bank of the Liao river but an increased force has been observed in the neighborhood of Sianshan. Japanese cavalry has appeared in the vicinity of the Liao River.

St. Petersburg, Sept. 27th.—The Naval organ from Kotin to-day publishes an article predicting that Rear Admiral Wiren will attempt to break out of Port Arthur with his ships and return to Europe. The paper admits that the task of escaping from Admiral Togo appears to be hopeless, if one takes for comparison Admiral Cervera's attempt to get away from Santiago, but adds that Wiren's men unlike the Spaniards have plenty of war experience.

London, Sept. 27th.—Telegraphing from Chefoo, a correspondent of the Daily Mail says: "Photographs received from Port Arthur which were taken as late as Sept. 14 show that piles of coal stacked on the Tiger's Tail at the beginning of the war are still there."

## CERTAINLY AN OLD TIMER

There is in Edmonton to-day a man named L'Hirondelle, who was born ninety-two years ago on the shores of Great Slave Lake, and who came to Edmonton eighty-six years ago as a boy of six. Since then he has lived in various parts of the Peace Athabasca and Saskatchewan river districts. He speaks French and Cree, but no English. He is the father of Joseph L'Hirondelle, of Calgary, and of Mrs. Beaupre, of St. Albert. Others of his family are in this district. His father came direct from France to Great Slave Lake, and his mother was a Stony Indian woman.

## NEW RESIDENCES

Malcolm A. Groat is erecting a splendid residence near the site of his old house on the Groat estate. It overlooks one of the most beautiful portions of the Saskatchewan valley at Edmonton. The house will be fifty-one feet by thirty-nine and consists of two storeys and a full sized basement with a cement floor. It will be built of rubbed brick with buttresses, corners and turret pilasters of cement blocks. A splendid

verandah extends around two sides of the building. The verandah will be supported on hollow pillars. The house will be fitted in an up-to-date style with the most modern conveniences. The plasterers are now at work on the house.

Jno. E. Graham has commenced the erection of a splendid residence, thirty-three feet by twenty-five feet, to consist of two storeys and basement. It is situated on the corner of Fifth street and Hardisty avenue. The first storey will be built of compressed brick, and the second will be of pattern shingle finish. Work on this residence is now in progress and will be rushed through to completion.

Mr. K. D. L. Powell has erected a splendid residence on Namayo Avenue. It is thirty feet by thirty feet, and consists of two and a half storeys, and a full-sized cement floored basement. The house is well finished, heated by hot air furnace, and lighted with electric light. The house has been fitted with the most modern conveniences.

## WANTED

C. E. McManus & Co.

**A NEW CHURCH****EDMONTON BAPTISTS**

Will erect a handsome structure on the corner of Second Street and Athabasca Avenue

Edmonton Baptists will erect a handsome new church on the corner of Second street and Athabasca avenue, just north of the Skating Rink. It will be a splendid structure, ninety-five and a half feet long by sixty-eight feet wide. It will be built of the best rubbed brick and of cement blocks. The basement base course, buttresses, and turrets on the corners of the church will all be of cement blocks.

The church will be heated by hot air, two furnaces for this purpose to be installed in the basement. The building will be lighted throughout by electricity. There will be three entrances to the church, the main entrance and a side entrance both leading off Second street. A basement entrance leads from Athabasca avenue.

The church windows will be of art glass. A splendid brick tower leads from the ground and measures seventy feet from top to bottom. Edged with round concrete blocks and having round concrete turrets, it will add much to the attractiveness of the building. The auditorium of the church is splendidly laid out. Ample accommodation has been provided for the choir and the Baptistry adjoins the choir loft.

The basement has an eleven foot ceiling, supported by iron columns. In it will be held the Sunday school. The school room proper is twenty-two feet by sixty-four feet. Opening off this assembly room is a wing, thirteen feet by twenty-two feet and off this again two splendid class rooms, thirty-four and a half feet by twenty-two and a half feet. In cases of emergency all this space can be included in the assembly room. Besides the Sunday school rooms there are in the basement a store room, two furnace rooms and a kitchen. These are to the rear of the meeting room. Off the front of the meeting room is a library and two robe rooms, a stairway leading from the robe rooms to the Baptistry.

The auditorium will have seating capacity for six hundred, and as provision is to be made for the installation of a gallery with a seating capacity of three hundred and fifty, the building will be large enough for the needs of the church for some time to come.

The whole of the building is a most substantial one, and will have a very attractive appearance.

**CITY NURSERY**

The lots between Jasper avenue east and the river bank belonging to the town have up to the present remained unused. These lots, 4 to 9 inclusive, block B, river lot 14, are now being fenced under the direction of the city engineer. They have been ploughed up and will be used for nursery purposes. Part of this plot

of land has recently been sown with tree seeds. The tree plants will later be used for boulevarding purposes. At present all this work is being done under the direction of the city engineer, but as the demand for shrubs for boulevarding purposes increases a plot of land will be set apart entirely for nursery purposes and a man will be put in charge of it alone. In grading new streets in the city they are so laid out as to permit of boulevarding.

**TOFIELD**

M. McCauley, who was in town yesterday from Beaver Lake, reports stacking nearly finished in that district and some threshing done. Mr. McCauley threshed two loads of oats, the product of an acre and a half. The return was 120 measured bushels from the thresher, and 131 bushels by weight.

Buyers for the Canadian Northern Railway have been purchasing oats in the Tofield district, paying 35cts. a bushel.

An outfit of railway graders were reported at work on the flat land near the Vermillion near Vegreville. This work was not connected with the work to the east, it being done while dry this fall so that grading operations would not be delayed there should next spring be wet.

The new Tofield school house has been completed, and will be occupied from October 1st.

Rev. R. Robertson, Presbyterian missionary, is about to remove to another field.

Dr. Tofield has taken up residence again in the settlement that bears his name.

**SUMMING UP**

**T**HE principal features of my Pharaoh Cigar are as follows:

1.—Cuban filler—I select from the best grown in the Manicaragua district in the Province of Santa Clara.

2.—Connecticut Broadleaf binder—the most expensive grown.

3.—Clear leaf Sumatra wrapper, I import direct from Holland.

4.—I do not work any tobacco until I age it at least three years—then the taste and fragrance are fully developed.

5.—Each cigar is rolled by hand, under my personal supervision—I secure in Pharaoh a steady, even combustion and a cool, sweet smoke.

*J. Bruce Payne, U.S.A.*  
GRANBY, R.Q.

None genuine unless branded **PHAR-O**

**Indigestion**

isn't always the stomach's fault. Constipation clogs the bowels—lazy liver won't work—kidneys get upset. No wonder food is not digested properly.

ABBEY'S SALT stirs up the liver and kidneys—cures constipation—makes the bowels move regularly. It tones up the stomach, aids digestion and gives you an appetite. Absolutely free of alcohol. At all Druggists—in 25c. and 60c. bottles.

**Abbey's Effervescent Salt**

**Ross Bros.,  
Limited.****This is the time to look after  
Your Stoves**

Ross Bros., Limited have a very fine assortment of Heating Stoves, either for wood or coal, or for both, their stock now is large and still quite complete and if you are going to buy a new stove it would be better to do so early and thus have a better assortment to choose from

They have the newest things in stove trimmings and furniture and you can make no mistake in buying from them, their tinsmiths are first class and any work done by them is sure to please, so when you want a stove or any work done in connection with your stoves, go to Ross Bros., Limited

**In Sporting Goods**

Their stock is still well assorted and buying in such large quantities as they do, enables them to give you more for your money and better goods than you can get elsewhere

They have an immense stock of shot guns and rifles and you will be surprised to know how cheap they are.

**In Their Plumbing and Steam Fitting Department**

They employ only the best mechanics and their work and material is fully guaranteed. If you need anything in that line don't put it off too long, winter is getting very close and good plumbing work is done much better and cheaper in mild weather.

**Ross Bros.  
Ltd.**

## WESTERN NEWS

## INTERESTING ITEMS

Clipped from Our Exchanges. Matters Occupying the Attention of Other Western Towns

Wetaskiwin Post: Recent reports from certain sections of the country lying in the path of the extension of the Canadian Pacific Railway Company east of Wetaskiwin seem to indicate that some of the settlers seem to have very grave doubts as to metal being laid for a year or two. The Post is credibly informed that the line will be completed in full as far as the present grading contract is concerned, not later than next fall, so that we trust that this news will cheer up those who imagine that it takes the C.P.R. three years to build twenty-five miles. Three years from to-day we hope that this extension will have extended far indeed.

Red Deer Advocate, Sept. 23: On Saturday a new town named Alexis situated on Haunted Lake, and about nine miles from Buffalo Lake, was thrown on the market at Lacombe. A considerable amount of speculation in lots took place, the price realized being \$100 per lot. This new town is on the proposed spur from Lacombe.

Red Deer Advocate: The Dominion Land Office continues to do a "land office" business. Last month the number of homestead entries was 153 as compared with the same month in 1905. Up to and including September 20 the number of entries was 103.

Prince Albert Times, Sept. 15th: Capt. Coates' new steamer Alberta made her trial trip on Monday afternoon last, and on Tuesday loaded her first cargo and started for the Elbow.

Maple Creek Signal, Sept. 15: The first snow of the season fell on Monday night. The air was cold and the night cloudy, and before dawn the ground was covered with a white blanket. Frosts, too, have been in evidence this week, and the leaves are beginning to show tints of brown and yellow.

Swift Current, Assa. Sun.: Mr. Frank Goodwin, of Glen Allan, Saskatchewan Landing, picked over 60 apples off one three year old tree. They were fully matured and a good sample.

Saskatoon Phenix: Several samples of wheat sent by Mr. C. Keane to Winnipeg from this district have been received and he has had notification that they have all graded No. 1 hard. It will be hard to beat the Saskatoon district; no frost here until the night of September 11, and then nearly all the wheat was cut and safe.

## PEMBINA RIVER DISTRICT

## Bulletin Correspondence.

This country being quite new and only recently opened up to the homesteader, one does not find as yet any large amount of land under cultivation, but the small grain and vegetable crops look first class, and a visitor can see at once what kind of soil this portion of the country is favored with.

Anyone wishing to combine work, mixed farming, with pleasure in the form of boating, fishing, and hunting, will find this a most desirable portion of the country. Land hunters are to be seen in all directions in the district, a great many being well-to-do American and English ranchers, making a splendid class of settlers. They realize the good openings here just as soon as the railway lines pass through as both

the G.T.P. and C.N.R. have surveyed lines through this portion of the country leading to the Peace river or Peace river pass.

E. H. Reid has recently returned from driving Frank T. Denison, a well-to-do Trimsley, Ontario farmer to that district. Mr. Denison represents a number of Ontario farmers who are anxious to move to the Edmonton district. On their return from the Pembina he handed Mr. Reid the following letter:

"On Tuesday, September 20, I secured the services of E. H. Reid the land guide at Edmonton, to conduct me to a good district for mixed farming, that is, grain growing and stock raising. Following his suggestion we headed for the Pembina river, about fifty miles northwest of Edmonton by the trail. The journey there, besides being through a beautiful country, was full of surprises for me. I was struck with the large crops of first class grain, oats, wheat and barley, also the lay of the land, which is largely self-drained and very fertile. We saw splendid vegetables which cannot be equalled in any district of any other country. The whole country is dotted with small lakes and game is plentiful. Mr. Reid is himself well posted in regard to the general nature of the different parts of the district and understands the office of guide. He is competent to give advice on any branch appertaining to homeseekers, etc. It was a very enjoyable and profitable trip to me. Signed—

FRANK T. DENISON."

The party took some splendid samples of grains and vegetables back with them from the Pembina district and they are now on exhibition in the Immigration Hall. They are well worth inspection.

Mr. Denison visited the ranch of Messrs. Sheppard, beautifully situated on the banks of the Pembina, and was highly pleased with what he saw. He got some splendid samples of vegetables from the garden. Mr. Sheppard having travelled upwards of a thousand miles in a land hunt in Alberta believes that the Pembina country cannot be equalled for mixed farming, and he certainly should be an authority on the subject, being an old buffalo hunter and a friend of the famous Buffalo Bill. He is an old pioneer and a man of vast experience.

Perfect Protection against  
Northwest Winters

Ordinary underwear is made for ordinary climates. Most makers can't appreciate the intense cold of the Northwest. Their garments are all right for freezing weather, but entirely too light for 30 to 50 below zero.

Stanfield's  
Unshrinkable  
Underwear

is knitted in special weights, especially for the severe winters of this section. It's planned by men who know the climate and the people—know exactly what they want—know how to knit it thick enough for warmth, yet not too heavy for comfort.

Best of all—Stanfield's is guaranteed absolutely unshrinkable. All sizes to perfectly fit every figure. 100% cotton. Manufactured throughout the West by Stanfield's.

## THE CITY COUNCIL

MEETS IN REGULAR SESSION

Water Works and Electric Light matters cause a major portion of the discussion

The regular meeting of the Edmonton city council was held in the council chamber yesterday evening. Councillors Cushing, Grierson, Ross, May and Picard were present. In the absence of Mayor Short Councillor Cushing occupied the chair. The minutes of the last regular meeting were read and adopted.

Considerable discussion took place on the extension to the first plans for the new city offices. Since commencing the building the contractor Mr. Gardner has been instructed to make various changes in the first plans. He presented figures for some of these extensions one of which was for a wall down the centre of the basement between the cells for \$113.40. This figure was granted. A bill of \$150.00 for an extra vault door, a bill for \$325.00 for extra heating for the enlarged building were presented and agreed to. The total contract price will now be \$11,593.40. A communication from Ross Bros stated that the plumbing in the new building could be done for the same figure as given in the first contract. Councillors Cushing and May were appointed a committee to state the cost of any future extensions to the building.

A. W. Dingman, manager of the North-West Gas and Oil Company, asked for permission to tap the city waterworks system for a supply of water for their boiler while boring the first test well for gas or oil. He also asked that the city give the water free of charge as the well was merely being dug as a test. This was granted. The test well will be located on the flats.

Communications:

A telegram was read from R. Wilson Smith offering to take \$110,000 of waterworks debentures at 4 1/4 half yearly interest. Mayor Short wired from Regina in connection with this advising against accepting the offer until offers had been received from other agents. In accordance with this it was decided to wire R. Wilson Smith requesting them to hold their offer open one week pending Mayor Short's return. The secretary was further instructed to wire Mayor Short to this effect.

A letter from R. S. Kelish dealing with city electric light matters in connection with the purchase of test meters. The letter was referred to the fire, light and water committee to confer with Messrs. Taylor and Ormsby.

The Robb Engineering Company wrote regarding the shipment of machinery. The Babcock, Wilcox Company also wrote regarding the shipment of this machinery, and further acknowledged the receipt of a check as part payment on their contract.

Willie Chipman, consulting engineer, wrote regarding the purchase of an automatic valve to cut off the water tank. Other waterworks matters were also dealt with. These were referred to the fire, water and light committee.

The engineer was instructed to examine the ditch emptying into the river on Fourth street and also the condition of the sedimentation basin.

Last year R. Mata was given permission to construct a frame addition to his hotel on the understanding that he would rebuild in brick this year. He has not yet done this and asked for a further extension of time. He will build a three story brick hotel. The council granted him the extension until the season of 1905.

Jas. McGeorge made an offer for insurance on the water tank. The matter was left over for the present.

Reports:

Petitions for the grading of Twelfth street, for a side walk on the west side of Seventh street from Jasper to Victoria avenue, and for a cement side walk around the Windsor Hotel were reported on by the proper committee, and were ordered to be carried out.

Engineer McNaughton of the power house asked that Mr. Ormsby be instructed to cut off a number of electric lights in view of the large machinery being shut down so that there may be better lights. This was referred to the fire, water and light committee and the engineer, with power to act.

The city engineer reported that a water and sewer service along Elizabeth street from McDougall street to Queen's avenue would cost \$900.00

Councillor May brought up the question of a side walk to serve the residents on the flat near the Dowling Mill. The matter was referred to the engineer and to the secretary-treasurer for power to act.

Ross Bros. tender for installing a urinary and a water closet on the market was accepted. The small building formerly used as a dog pound now on the market will be moved to the weigh scales and used for this purpose.

The finance committee's report was adopted.

It has come to the notice of the council that parties are taking gravel from the town pit without paying for it or without authority.

The engineer will place a notice to the effect that anyone found taking gravel from the pit will be prosecuted.

The council then adjourned to meet next Tuesday evening.

## DISCUSSION

### ON DISSOLUTION

There will be no definite announcement regarding the date of elections for a day or so.

Bulletin Special Dispatch.  
Ottawa, Sept. 27.—Sir Wilfrid Laurier called on Lord Minto to-day and discussed dissolution. The Premier left in the forenoon for Montreal and will speak at Sorel to-morrow. There will be no announcement of dissolution until he returns.

## JUDGE MORRISON

### AULEY MORRISON, M.P.

Appointed a Judge of the British Columbia Supreme Court to succeed Justice Drake.

Bulletin Special Dispatch.  
Ottawa, Sept. 27.—An order in Council was passed at to-day's cabinet meeting appointing Auley Morrison, M.P., New Westminster, to be Judge of the Supreme Court of British Columbia in place of Judge Drake who resigned some time ago. Mr. Morrison represented New Westminster in the Dominion House since 1896. He is a native of Nova Scotia.

## IN THE ASSEMBLY

### INTERESTING DEBATE

On the Speech from the Throne. Members discuss the Municipal System and Provincial Autonomy

Bulletin Special Dispatch.  
Regina, Sept. 27.—Contrary to the usual custom there was an interesting debate on the speech from the throne at the Legislature this afternoon. The address in reply, which was moved by Horace Greely, Maple Creek, and seconded by Mr. McIntyre, Mitchell, was merely a formal acknowledgement of the speech. In addition to the mover and seconder, Messrs. McDonald, Haultain and Patrick spoke on the speech. All made a few general remarks and referred at some length to the municipal system and provincial autonomy, regretting that the Federal Government had not seen fit to raise the territories to the provincial status.

### RAILWAY NOTES

The September issue of the Railway and Shipping World contains the following items regarding the Calgary and Edmonton Railway:

The Judicial Committee of the Privy Council, London, England, has given judgment on the appeal of the C. and E. Ry. and another, against the Crown. The action was originally brought by the company on petition of right to have it declared that the grants of land which it was entitled to should not contain a clause reserving all the minerals underneath to the Crown. The company did not dispute the reservation of gold and silver, but contended that it is entitled to all other minerals under its special act and the order-in-council of July 27, 1890. The Exchequer Court decided in favor of the Crown, and on appeal to the Supreme Court of Canada was divided, the judgment of the Court below being therefore affirmed. The Privy Council, having heard arguments, reversed the judgment of the Courts in Canada, with costs, and directed that all future grants to the

## ATHABASCA LANDING

### LAST MAIL FOR THE SEASON

Left the Landing today for the Far North. Athabasca River very low at present.

Bulletin Special Dispatch.  
Athabasca Landing, Sept. 28th. Powder and Harty leave to-day for Chippewyan with two scows, taking with them the 1st mail for the season. Breeden and Cornwall's boats arrived from Lesser Slave Lake this morning and are loading for the return trip.

The water in the Athabasca is now lower than it has been for years and traders' boats cannot take their full loads.

J. Gagnon's new stable in connection with his hotel is nearly completed and when complete will hold twenty-six or thirty teams.

There have been three convictions for bringing liquor into this district and people coming here should be very careful about bringing any with them as Serg. Haslett is rigidly enforcing the law.

### C. N. R.

### AT LLOYDMINSTER

Will be graded to Buffalo Coulee this Fall

Bulletin Special Dispatch.  
Lloydminster, Sept. 28.—The work of construction on the Canadian Northern Railway is going ahead as fast as teams can do it. At the present time there are over 950 teams working between Battleford and the Vermilion. By the end of the season everything will be graded right through to Blackfoot Coulee, and the greater portion of the work done. It is really marvellous how the grade is being piled up. The whole of the work is under the supervision of Mr. W. A. Dutton, manager for J. D. McArthur, who left here this morning for Vegreville to start teams working there. The timber for the bridges is all floated on the Saskatchewan river and a large gang of men are driving it down to Battleford. The construction of the bridges will cause a little delay, but the engineers seem confident that the steel will reach Battleford this year. This building of this road, this year, has been a boon to many settlers throughout this district as it has given work to everyone who is willing to take hold. Several thousand bushels of oats have been floated down from Edmonton to Fort Pitt, for the work, and the trail from here to Fort Pitt is lined with a regular string of ox teams freighting the oats to the several camps at a good figure.

## The Canadian Northwest Homestead Regulations

Any even numbered section of Dominion Lands in Manitoba or the Northwest Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age to the extent of one quarter section of 160 acres, more or less.

ENTRY.—Entry may be made upon the district in which the tract to be taken is situated, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, or the local agent for the district in which the land is situated, receive authority for some one to make entry for him. A fee of \$10.00 is charged for a homestead entry.

HOMESTEAD DUTIES.—A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent, may be satisfied by such person residing with the father or mother.

(3) If a settler has obtained a patent for his homestead, or a certificate for the issue of such patent, countersigned in the manner prescribed by this Act, and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent, may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

(4) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon said land.

The term "vicinity" used above is meant to indicate the same township or an adjoining or cornering township.

A settler who avails himself of the provisions of Clauses 2, 3, or 4, must or substitute 20 head of stock, with buildings for their accommodation, cultivate 30 acres of his homestead, and have besides 80 acres substantially.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled, and the land may be again thrown open for entry.

Application for patent should be made at the end of three years, before the local agent, sub-agent or Homestead Inspector. Before making application for patent, the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

Information—Newly arrived immigrants will receive at the Immigration Office, in Winnipeg, or at any Dominion Lands Office, in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing land to suit them. Full information respecting the land, timber, coal and mineral wealth, as respects Dominion Lands in the Rainy Lake Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

## JAMES A. SMART,

Deputy Minister of the Interior, N.B.—In addition to Free Grant Lands to which the regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

Never Sticks. Requires no Cooking

The Bradford Starch Works, Limited, Bradford, Canada

## Superfluous Hair

Removed by the New Principle.

## De Miracle

It is better than electrolysis, because it does not produce a new growth. Better than X-ray, because it does not burn, scorch or paralyze the tissues under the skin. Better than depilatories, because it is not so strong, and will not cause skin poisoning, or produce eczema, which is so common with depilatories, and does not break the hair thereby increasing its growth.

Electrolysis, X-ray or depilatories are offered you on the bare word of the operators and manufacturers. De MIRACLE is not. It is a guaranteed product, recommended by physicians, surgeons, dermatologists, medical journals and prominent magazines.

De MIRACLE will be mailed on any address in Canada, on receipt of \$1.00. Your money back without question (no red tape) if it fails to do all that is claimed for it.

Order—The most complete treatise on Superfluous Hair ever published—containing the testimonials of numerous physicians and surgeons and those of hundreds of others will be sent free in a special envelope, upon request. Enquire for it at your local druggist or write for it to-day to

## LOCAL

The Vermilion Valley Agricultural Exhibition takes place at Vegreville on Friday of this week.

A practice of the Confederate Spy will be held in Robertson's Hall this evening and to-morrow evening.

Williamson Bros. shipped a carload of hogs to Calgary this morning. From four to four and a half cents a pound was the price paid for the hogs.

Saturday next October 1 is donation day at the Edmonton Public Hospital. Donations of all kinds will be thankfully received at the hospital.

Jas. Gibbons, of the Stony Plain Indian Agency, is in the city. He leaves on Friday to make the treaty payments at the five Indian reserves in his district.

A. McEachern and John Brailey of Gould city, Michigan, who are making a trip through Western Canada, looking up timber and mixed farming investments, left this morning for the south.

The North-West Gas and Oil Company will soon commence active operations as their boring machinery has now arrived in the city. The first test well will be located somewhere on the flats below the river bank.

The city engineer is having all the ditches along Main street cleaned out this fall. This will prevent flooding in the spring when the snow is melting. Last spring obstructed the ditches caused the filling of many of the cellars along Jasper avenue.

The cattle men of the Okotoks-Southern Alberta district, are discussing the advisability of erecting a dipping station as a preventative of mange. Dipping stations have been built in other sections of Southern Alberta where mange made an appearance last summer.

J. A. Macdonald, C.E., arrived last night on his way to the Peace river to conduct an exploratory survey which will probably last eighteen months. He is accompanied by J. Belieu, C.E., as assistant. The instruments, canoes, and other belongings of the party arrived by express a few days ago and the party will go north within a day or two.

The two alternators, part of the new electric light machinery, have arrived at the station, and are being unloaded to-day. All the machinery is now in with the exception of the engines, which have been shipped. The Babcock, Wilcox Company are supplying the machinery. The concrete abutments for the foundations of the boilers have been laid.

Wm. Boatman, of Riverside, California, has recently arrived in the city with his family. He is looking up a desirable homestead. He returned from a trip to the district to the east of Edmonton, and left to-day on a trip to the Edison district. He is greatly pleased with the country and Northern Alberta generally.

L. C. Ward is in the city to-day from McDonald's crossing on the Pembina river. Mr. Ward is a guide for the Pembina river district. He stated that over thirty claims have recently been taken up in that district. Some splendid roadwork is being done along the Alexandria reserve on the Deadman's Lake trail. This will put this road into good shape and will be an inestimable boon to settlers in that district as well as to landseekers.

The new Strathcona Baptist church is a handsome structure, sixty-eight feet by fifty-six feet. The auditorium of the church will be forty-four feet by forty-one feet. To the rear of the Auditorium is a Sunday school room, thirty-two feet by twenty-two feet. A square tower, forty-four feet high, adds much to the attractiveness of the building, which will be constructed of solid brick. The building will be heated by hot air from the two furnaces in the basement, and will be lighted by electric light. The church will cost in the neighbourhood of fifteen thousand dollars.

The weather lately has been all that could be desired. In fact, it has been more like June weather than September, except that the trees are rapidly losing their leaves. The hot sunny days are exactly what the farmers have been wishing for, and they have made good use of it to get their stacking done. In some localities this has been finished and threshing has commenced. At noon yesterday clouds rolled up and a light shower of rain fell and it looked as if we were to have another spell of wet weather. The rain was only a few minutes' duration. It soon cleared up, and yesterday afternoon the sun was bright sunny weather.

A party of C. P. R. officials who have been making a tour of the western lines arrived in Strathcona Monday. In the party were Robt Kerr, general traffic manager and W. R. McQuins, freight traffic manager and F. W. Peters, assistant freight traffic manager.

A Chinaman who was arrested in Wetaskiwin some time ago for assault and who was admitted to bail in Edmonton is again in custody. His Celestial friends who went security for him were suspicious that he intended flying the country and promptly informed the police.

Lumber has been laid on the ground for a sidewalk along the east side of MacDougall street, north from Jasper avenue. A number of sidewalks are now in course of construction in other parts of the municipality and still others which are to be completed this fall have not yet been commenced. Among the latter is a sidewalk along the west side of Seventh street, H. B. R., from Jasper avenue to Victoria avenue.

## PERSONAL

Thos. Hauston has returned to the city from a trip to Scotland.

D. Maloney is in the city from Edison. He reports everything flourishing in that district.

J. Aylmer, of the Merchants Bank staff, Edmonton, is relieving in Leduc at present.

R. W. Jones, Grand Trunk Pacific engineer, has returned from a trip to Lake St. Anne.

Mr. and Mrs. Jas. McAllister went to Calgary this morning. Mrs. McAllister goes on to Kootenay on a short visit.

## THE G. T. P. AND THE WEST END OF TOWN

Editor Bulletin:

Owing to my utter unfamiliarity with the language, it is with accentuated reluctance that I accede to a request made of me by the majority of the residents in the west end of Edmonton to express their explicit disapproval of the present Grand Trunk Railway Company's project to acquire this portion of the town for their own ends and purposes. Such an acquirement, should it take place, would, in our estimation, be an unprecedented act of landlording.

The residents of the west end never, for a moment, believed that it was the intuitive idea of the G. T. P. to so disturb the peace which we now enjoy in our homes with such disregard of all human laws. But we sincerely believe that all this wrangling about a question which I do really repudiate dealing with, is simply and essentially a put up job by some of the leading men in the east end to brighten up the future prospects of their own end of the town at the detriment of the other end—I should say at its death blow.

We are not hostile to the prosperity of the east end, far from it. When the question of straightening the main street was voted upon, I voted in favor of it, and I condemn the act of all those from the west end that voted against it.

The east end ought to be satisfied with their present advantages over the west end. They are, I may say, an old town while we are as yet an infant town. As far as advancement is concerned, they are half way up the ladder while we are yet at the foot of it looking up with hope to the time when we may go up a step or two.

I hope that my friends from the east end will back water and I respectfully take leave to remind them that should they insist upon carrying out their scheme, their act would materially resemble the inhuman, brutal act of a man hitting a child.

I am, Mr. Editor, your's respectfully,  
LOUIS LAPAGE.

Edmonton, Sept. 22nd, 1904.
